

Year 1/2 Curriculum Letter Summer 2 2022

Maths B1/2 - The year 1 children are focusing on fractions, place value to 100, money and time. Year 2 children are learning about measurement e.g length and height, mass, capacity and temperature. H1 will be finding and recognising halves of shapes and quantities. P2 will be focusing on measurement this half term. We will be looking at weighing objects in grams and kilograms, measuring capacity with volume and recording length in centimetres and metres. We will also focus on securing our times tables this half term.

Science In Science this half term the children will be discovering what is meant by a "habitat" and a "micro-habitat" and what kind of plants and animals have habitats and micro-habitats at the seaside. They will consider how different habitats are adapted to suit the basic needs of different kinds of animals and plants and how they depend on each other.

English We will begin this half term by reading and exploring "The Lighthouse Keeper's Lunch", describing food, writing instructions and exploring the emotions and feelings of the characters. Later, we shall write explanations linked to our seaside topic, before rehearsing and performing a selection of seaside poems. Please still make sure that you are reading with your child every day, checking that they understand what they have read and developing their love for reading in general.

PE In Outdoor PE the children will be following a unit called "Amazing Athletics", working on developing the skills they will need for Sports Day. In Indoor PE they will be working on improving agility, balance and co-ordination through the use of circuits

DT In DT children will be using "The Lighthouse Keeper's Lunch" as their inspiration to make a model lighthouse with a winding mechanism to lift Mr Grinling's basket. PLEASE COULD YOU SEND IN A RANGE OF SMALL BOXES AND TUBES? Please no toilet rolls!

Please find overleaf a list of topic words that it would be useful to make sure your child understands at home to help with their learning.

RE In RE pupils will be finding out about how, where and when people worship. We will be asking questions about why meeting in these places is important to believers.

Music The children will continue to work with our specialist Music teacher studying famous composers work .

Geography Geography lessons this half term will see the children identifying human and physical features of the British seaside compared to Burton on Trent.

PSHE This half term children will be learning about where money comes from, keeping it safe and the importance of managing it effectively.

History In History the children will be discovering who Grace Darling was and why she is believed to be a significant figure in History. They will look at artefacts from the time and considering why she is remembered today.

The Arts This half term we will be finding out about William Shakespeare and exploring characters through drama and reading. At the summer fair, you will be able to view every child's art work in the school for a small donation.
